

JOTUN

Protective Coatings for Infrastructure Projects

Protective coatings for infrastructure projects

Jotun serves both regional players and some of the biggest and most demanding multinational industrial development companies in the world. The high investment costs required for the construction and development of large infrastructure projects often involves a complex international network of architects, consultants and contractors.

Jotun is a world leader in coatings with 71 companies and 40 production facilities across all continents and a product range that meets the demands and expectations for the protection and decoration of the most complex infrastructure projects.

Competence, experience, knowledge and rigorous training of personnel combined with high quality innovative products make Jotun a reliable and preferred supplier.

Buildings

Jotun has the experience, the products, systems, capacity and network to deliver the requirements demanded in the protection and decoration of large building projects.

Jotun has demonstrated its ability to meet the specifications of a broad range of international companies including:

- ◆ architects
- ◆ designers
- ◆ contractors

Protected with Jotun systems:
Top: Khan Shatry, Astana, Kazakhstan
Left: Kingdom Trade Centre, Saudi Arabia
Bottom: Dongguan Opera House, China

Protective coatings for infrastructure projects

Airports

The development of air travel has seen a dramatic expansion of airport facilities worldwide – projects that typify the benefits provided by Jotun:

- ◆ coatings for the protection and decoration of steel and concrete surfaces
- ◆ passive fire protection of terminal buildings and hangars
- ◆ external and internal coatings for fuel storage tanks
- ◆ concrete floor protection
- ◆ powder coatings

Protected with Jotun systems:

Bottom right: New Surabaya International Airport, Indonesia

Bridges

Concrete and steel in bridges require protection from weathering, impact and abrasion.

Typical Jotun protective systems meet four specific demands:

- ◆ resistance to the penetration of corrosive substances
- ◆ extremely good adhesion
- ◆ excellent resistance to atmospheric exposure up to C5-M and excellent resistance to immersion exposure up to Im3 in accordance with ISO 12944
- ◆ mechanical and thermal stress

Jotun's key factors to achieving optimum durability of infrastructure projects

Jotun is a long-standing global player in coating development and supply.

From its beginnings in the early 20th century to its position today as a world leader in coatings, Jotun has consistently developed in a number of ways:

Firstly through the development of a range of innovative coatings solutions for the protection and decoration of steel, concrete and other substrates in the broadest spectrum of industries.

Jotun's carefully planned implementation of a strategy for international expansion has brought Jotun products and services to the widest market and customer base.

Through the training, experience and knowledge of a global technical support team the highest standards of service and protection are achieved.

Jotun's recognition of its responsibility for the protection of the environment, customers and employees contributes towards the raising of standards in the industry worldwide.

Jotun coating systems protect the Malaysia Klia Sepang F1 Circuit, Malaysia

Top quality product range for demanding users

We live in a world where infrastructure projects increase in complexity and demands to improve lifecycle costs and system performance become greater. Jotun meets these challenges with the development of innovative products that all incorporate common aims:

- ◆ excellent protective properties for each specific job
- ◆ deliver value and performance
- ◆ combine quality with performance
- ◆ take account of environmental responsibilities

Track record of proven successful projects

Jotun recognised long ago that the finest products in the world are ineffective unless they are supplied on-site, on-time. As the company expanded so too has its logistics support. Ensuring that it maintains its reputation for delivering on its promises through:

- ◆ a worldwide network of production facilities and supply points
- ◆ the development of increasingly sophisticated supply management systems
- ◆ a company wide culture of passion and commitment to exceed customer expectations

Jotun's key factors to achieving optimum durability of infrastructure projects

Jotun coating systems protect Guangzhou West Tower, Guangzhou, China

Local production to international standards, for on-time delivery

Over the decades Jotun has maintained a strategy of investment in organic growth, establishing itself in an increasing number of markets across the globe.

To its customers the benefits are substantial:

- ◆ an available supply resource of 40 production facilities across the world
- ◆ locally produced coatings manufactured to international standards meaning fresher product delivered faster
- ◆ consistency of product quality
- ◆ local service from local personnel trained to Jotun's demanding international standards

Jotun coating systems protect the US\$600m Southern Cross Railway Station development in Melbourne, Australia.

Advanced technical solutions for protection and decoration

Jotun supplies protective coatings for steel, protective coatings for concrete, decorative coatings, passive fire protection coatings and powder coatings. These benefit customers through:

- ◆ simplified supply chain
- ◆ multi-skilled technical service and support
- ◆ global experience with local knowledge
- ◆ unrivalled expertise and experience
- ◆ proven specialist products and systems
- ◆ established quality assurance worldwide

Team No.1 – a uniform standard of global service

All Jotun customers benefit from the unrivalled Team No.1 benefits:

- ◆ all technical personnel worldwide undergo the 36 month syllabus of training at the Team No.1 Coating Advisor Academy
- ◆ same standards of training worldwide, same competence, same standards of knowledge
- ◆ standardised tools, reports, procedures
- ◆ all FROSIO and NACE certified
